Doquanglong commented 9 hours ago

Description: The date order in Seeding report of BarnKit tab is not consistent.

Steps to replicate this problem:

1. Log into FarmData2 with the correct user credentials
2. Click on the tab BarnKit and then click on Seeding Report
3. Choose date from 05/01/2020 to 10/26/2023
4. Click on the generate report button

Expected result:

The 2020/05/06 should not be appear after the 2020/07/10 as the date order is increasing as we can see the 2020/06/30 before the July ones. (Those date are marked in the picture below for easier reference)

Observed result:

The date order is inconsistent as this bug also appear in many parts of the report.

This date should not be here

Doquanglong changed the title ~~Seeding report~~ Data display incorrect Seeding report Date data display incorrect 9 hours ago

dlkm20041130 commented 9 hours ago

Good job, long do, except the fact that your handwriting sucks, every thing else looks well to me, and your explanation is clear and organized.

HoangPhung-11 commented 9 hours ago

Overall this ticket looks good. The issue is valid and your format looks good. However, I think you can make the title look better.

longbui23 commented 9 hours ago

Great work! I think you should add a colon in your title, like "Seeding Report:"
